

1000Mbps Wired Network Adapter User Manual

Product Overview

This 1000Mbps wired network adapter offers a reliable high-speed Ethernet connection, featuring both USB-A and USB-C connectors for broad compatibility with laptops, tablets, and other devices. It converts a USB/Type-C port into a Gigabit Ethernet port, delivering stable wired internet performance.

Quick Setup

1. Connect the USB-A or USB-C connector of the adapter to the corresponding USB/Type-C data port on your computer.
 2. Wait 10-30 seconds for your device to automatically recognize and install the driver.
 3. Plug an Ethernet cable into the RJ45 port of the adapter to enjoy a stable Gigabit network connection.
